Attachments: 2012 DSR for Vasquez OU2 drft pms edits.docx

[REDACTED]

Steve – Attached is my redline version of the DSR for OU-02 GW monitoring. I apologize for the delay – seemed to have gotten swamped with other tasks. I am also forwarding Andrew Schmidt's comments in a separate email. I agree with Andrew's comments. If you have any Qs on either set of comments, please let me know ASAP so we can discuss.

As for Andrew's last comment on proposing locations for new monitoring wells, I think we should have a map showing the general location of additional wells. As for deeper monitoring wells for chlorinated solvents, we can discuss but I would wait until we begin discussions with the City to broach that subject.

Let me know your timeframe for turning the report around as I would like to get a copy to the City before the end of May – if possible.

Paula Schmittiel
